

Custom Pages Package

The 10 pages option gives you enough space to really showcase your products or services along with having a dedicated contact page, flash movie intro, flash gallery and whatever else you require.

Below is a run down of what the package includes:

Ten page website

A five page website containing any text you wish (must be provided in an editable format ie word document) along with images.

Flash movie intro/Flash Gallery

We create flash intro for your website. Flash intro/Flash Gallery make your website look nice and professional. We are make motion on flash fit for your website.

One years web hosting

One years web hosting is included in this package. The standard package included is our 4 Colors Design Package which comes with 200mb of web space and 500mb of bandwidth along with unlimited pop3 e-mail accounts and unlimited e-mail aliases if needed. Hosting renewal after your first year is 600 Baht for each year afterwards for the 4ColorsDesign Package. 4ColorsDesign package gives enough space for all brochure/profile style web sites.

Optional extras: some clients may wish to host bigger files or may require more e-mail accounts, if you feel you need a bigger hosting plan please contact us and we will quote accordingly.

E-mail Facilities

The e-mail facilities are included with your free hosting which comes with this web design package. We also offer a free service to set these up for you on your e-mail software (Outlook or Windows Mail for example).

Domain Name

One .com domain name is included free of charge.

Optional extras: We can also arrange other domain names at a small extra cost, please ask when ordering.

Contact Form

You can have two contact forms on your site which when filled out by your client goes straight to your e-mail inbox

Website stats

As with all our packages your site comes with free web site statistics. We provide you with an online login area which you can visit to see whos been looking on your web site and track its success.

Bespoke Design

As with all 4 Colors Design sites your site will be built 100% from scratch not using pre-made templates.

Only
20,000

Further Information

Here's a bit more information about our service which may come in handy...

Turnaround Times

This can vary depending on our current workload, please feel free to e-mail us for current turnaround times.

How do you work?

Our web site packages are built using the following work flow:

1. We collect your web site text, contact details and invoice details for the domain registration and general admin purposes.
2. We set up your hosting and Domain Names along with your e-mail addresses so these can be used whilst we are designing the site.
3. We start the outer site design and present you with the design preview for checking.
4. We make any changes you require and start to turn the design in to a xhtml web site.
5. The web site is completed and passed to the client for the final check.
6. We make any remaining changes you require.
7. Final testing is carried out on all major web browsers .
8. The web site is completed and made live!

Changes to my site in the future

We understand that the information on your web site may need updating every now and then, some more than others. The charge made for this is done on one time rate and can be quoted on before we carry out the work, simply let us know what you like doing and we will quote, usually most text and image changes can be done within an hour.

Our current hourly rate is 500-1,000 Baht

Can you make my site suit my current branding

This is no problem, simply provide us with your company logo and any other material you have had designed (ie your company stationery or marketing material) and we can make your web site fit in nicely!

Web Site Support

If you have any problems in the future we provide support by either phone, e-mail or the post.

Web Standards & Search Engine Optimisation

All our new web sites are built to W3C web standards for better search engine optimisation. When having your site built if you would like us to aim to get good results on a certain search term for your site please inform us and we will bring this in to mind when building your site.

Images for the web site

We can provide stock photography for your web site and we can also use images provided by yourself. Please inform us of what images you require on each page in your initial text document. There maybe a small extra charge for stock images, a maximum of nine stock images are included free with this package. Please enquire if you require more.
